The response received 10 January 2008 has been made of record.

Claims 1-9, 11, 14-18, 130-140 and 145-148 are pending.

Claims 1-9, 11, 14-18, 130-140 and 145-148 are rejected on the ground of nonstatutory obviousness-type double patenting as being unpatentable over claims 1-41 of U.S. Patent No. 7,208,122. Although the conflicting claims are not identical, they are not patentably distinct from each other because of reasons of record

Applicants' arguments in traversal appear to focus on the assertion that the patent fails to teach a particle comprising a luminescent polymer. This argument is not persuasive in view of the explicit language of claim 4 of the patent directed to luminescent polymer nanoparticles.

**THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not mailed until after the end of the **THREE-MONTH** shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than **SIX MONTHS** from the mailing date of this final action.
